Tweed Shire Council has commenced a project to prepare a master plan and plan of management for the Kingscliff Sportsfields known as (please see attached map/photo):

1. Reg Dalton Oval (Kingscliff Street),
2. Merve Edwards Fields (Sand Street),
3. Walter Peate Fields (off Wommin Bay Road), and
4. Proposed West Kingscliff Sportsfields (approx. 9.7ha open space site within land zoned for future residential development).

The master plans will also consider the current use and possible opportunities associated with the (adjacent) Ned Byrne Field, however this facility is currently leased and therefore will not be part of the overall master plan.

The first three sportsfields are used for a combination of hockey, soccer, rugby league, little athletics and cricket. The reserves include an extensive range of infrastructure including club rooms, pavilions, change facilities, storage areas, car parking and other facilities to support sporting use. There is also a small playground at the southern end of Reg Dalton oval. The proposed sportsfields in West Kingscliff are yet to be developed.

The purpose of the master plans and plan of management is to establish a clear direction for the future use and development of the reserves as key sporting and recreational precincts for Kingscliff residents. The master plans will consider the needs and priorities of existing user groups, potential new sporting uses and the broader recreational needs of residents.

This survey has been delivered to every household in the area surrounding the parks and is one of the opportunities which will be available for local residents to have input into the master planning process. In addition to this written survey, interested residents will be invited to attend a workshop later in the planning process to discuss and consider preliminary development options. If you would like to receive information regarding the date and time for this workshop, please ensure your contact details are included at the bottom of the survey below. Furthermore, draft master plans and a draft plan of management will be placed on public exhibition (when available) for community comment and review.

The questionnaire should take approximately 5-10 minutes to complete and must be returned by **Friday 15th December** in the reply paid envelope provided. If you wish to provide additional information please feel free to include a separate piece of paper.

For more information about this project, please contact Stewart Brawley, Council's Recreation Services Manager on telephone 02 6670 2530, or Jayson Moran, Stratcorp Consulting on 07 3230 0364.

In anticipation of your assistance, thank you.
