However, the accuracy of the study and maps is not absolute and reflects only the accuracy prepared using the best available data, computer modelling and mapping techniques. The predictions presented are only applicable to areas within the Main Boundary of the study. Development of the map may not be subject to flooding. The map applies to non-developed areas and does not apply to local drainage or channel flooding. For further information, contact the Tweed Shire Council.

DECLARATION:
This map is based on the predictions of the "Tweed Valley Flood Study (update 2009)" and the "Coastal Creeks Flood Study 2009". The predictions presented are only applicable to areas within the Main Boundary of the study. Development of the map may not be subject to flooding. The map applies to non-developed areas and does not apply to local drainage or channel flooding. For further information, contact the Tweed Shire Council.
