Business Investment Policy

Policy Objective

This policy encourages the development of a robust Tweed economy which is resilient to fluctuations in the economic cycle, has a broad range of business activities and supports the growth and development of sustainable employment opportunities for Tweed Shire's population.

Council will provide leadership and support as well as advocating on behalf of new or existing businesses to the other levels of government to attract funding and any other applicable incentives.

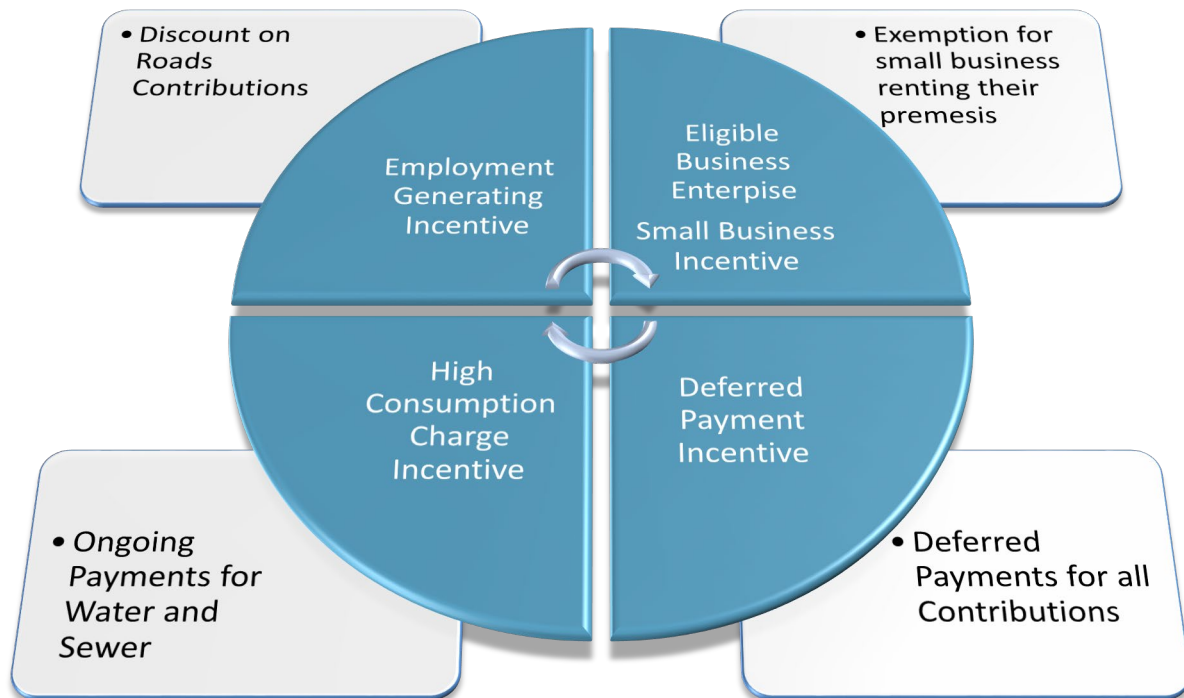

This Policy provides a holistic approach to support business investment and reinvestment in the regional economy, when the investment would not otherwise occur. It also encourages diversification of the economy.

This Policy provides the strategic context and governance platform to support Council's economic development strategies as outlined in the Tweed Economic Development Strategy and the Tweed Community Strategic Plan.

Policy Background

Tweed Council supports business development and growth and has prepared this Policy to offer a range of incentives to encourage new businesses and the expansion of existing businesses. This Policy is aimed at facilitating the development of businesses as they go through the difficult development phase.

The Policy provides a range of solutions to deal with developer charges and contributions arising from the development process. This range of incentives allows for all size of businesses to take advantage of this Policy. Depending on their eligibility businesses will be able to choose from the incentives shown below.

Guiding principles

This Policy provides assistance from Council to new business developments through a non-cash incentive towards developer contributions and developer charges for water supply, sewer services and roads infrastructure resulting from development approvals.

Any development relying on the incentive mechanisms under this Policy accepts that the incentive program is offered in good faith and that Council reserves the right to accept or refuse any application for assistance. An application under the minimum threshold may be considered by Council provided the applicant can demonstrate extenuating circumstances.

New investment and reinvestment should result in significant economic gain. This Policy tries to encourage a diversity of small businesses to develop and grow, especially in our CBDs. It also encourages businesses, developers and investors who will foster support services, employment and growth.

Under Council's Community Strategic Plan, Tweed Shire Council must demonstrate ecological sustainability through all aspects of its operations. In its endeavours to become a community leader in ecological sustainability Council encourages all developers and businesses to consider optimising the level of sustainability in their proposed developments.

Developer Contribution and Charges

Development Contributions are payments made by developers to enable Council to provide public amenities and services required for new residents and businesses. Section 7.11 of the Environmental Planning and Assessment Act is the principal legislation enabling Councils to levy contributions for public amenities and services. Section 7.11 Contributions are imposed by way of a condition of development consent or complying development. Currently there are 28 Developer Contribution plans but only three of these apply to commercial / employment generating developments. These are car parking, roads and Council administration offices.

Developer Charges are levied to assist in funding water and sewer infrastructure capital works required for growth. These capital works include water treatment plants, water reservoirs, pumping stations sewer treatment plants etc. Developer Charges are levied under Section 64 of the Local Government Act which refers to and is administered through the Water Management Act.

	Over \$100,000: 6 Years
Application:	Applicants will need to request Council to consider a deferred payments plan for their Development when they lodge a development application.

Process

The applicant will be required to enter into a written agreement with Council for deferred payments. This agreement will outline milestones, claims and deliverables that are in line with the business case originally provided as part of the application for assistance under this policy.

An investment which does not meet these thresholds may only be approved if it:

- provides a major opportunity to enhance Tweed Shire's investment reputation,
- fills a critical gap in the supply chain for a priority sector of the economy, or
- provides broader economic and social value for a specific location.

This policy recognises and facilitates major investments that require a staged/incremental development process. The applicant must disclose all grant funds or investment incentives offered by other agencies for the same development.

Security over Assets

Council will require protection of ratepayer funds as a result of any business incentive offered under this Policy.

Specifically, all deferred payment approved by Council will require the recipient to provide a bank guarantee for the full amount of any outstanding deferred monies.

The bank's obligations are discharged when payment to the council is made in accordance with this guarantee or when council notifies the bank in writing that the guarantee is no longer required

- where a bank guarantee has been deposited with council, the guarantee shall not be cancelled until such time as the original contribution and accrued interest are paid; or
- the bank guarantee is provided by an Australian bank or recognised financial institution.

Agreement

Council requires that in some instances an agreement will be required to formalise the conditions of the incentives package being offered. Any agreement will need to be sealed under the common seal of Council. Entering into an agreement will require a formal resolution of Council. Any report dealing with an application under this Policy will be dealt with as a confidential report to Council. Council will only enter into an agreement with the applicant of the Development Application.

All development contribution amounts are subject to annual indexation. Prior to a report going to Council to consider entering into an agreement all eligible amounts will be reviewed to ensure that the indexation is up to date. The developer contribution amount identified in the draft agreement will be made available to the applicant for a 12 month period.

Bankruptcy

Council will check to determine if an applicant under this Policy is currently declared bankrupt. Council will not make any offer to enter into long term financial arrangements with applicants who are currently identified as bankrupt.

Commencement

This policy will come into force at such time as appropriate amendments have been made to all relevant S.7.11 Developer Contribution Plans to cause these incentives to become effective.

This Policy will only be applicable to all development applications lodged from the date of commencement.

Review Period

A report will be provided to Council in two (2) years reviewing this Policy making recommendations for amendment.
