

# Case Study: Marty's @ Caba

## Award Winning

### Owner of Marty's @ Caba, Marty Waters

Located in a central spot to catch the sea breeze at Cabarita, this restaurant comes with bar, tapas, pizza, fine dining, music and has a full recycling service!

The cuisine and service has seen this business win quite a few awards and recycling should be amongst them.

The business is set up to collect and recycle all of its waste and is saving money left right and centre.

“With garbage services going up each year and with an average of 70 per cent of business waste being recyclable... why wouldn't you recycle?” said owner Marty Waters.

“Most of this business's waste is recyclable. We separate our cardboard, plastic bottles, tins and glass for recycling each week.”

“We've been recycling here for ages. We have boxes and bins set up in the kitchen and at the bar.”

“We have a wheelie bin service through Council and I take a trailer load of mostly cardboard to the tip once or twice a week as well. In this day and age it pays to recycle,” he said.
