

## River Health Grant Program

Funding is available to support rural landowners to improve the environmental condition of waterways in the Terranora and Cobaki Broadwater catchments.

Projects will target typical waterways problems, including weed infestations and bank erosion. A high priority will be given to projects that will improve water quality in Duroby, Bilambil, Piggabeen and Cobaki Creeks.

No stream is too small to be considered under the program and there is no requirement for permanent flow. However, a minimum bank length of 100 meters will generally be considered for funding.

The River Health Grants program is entirely voluntary, and a land owner commitment to project outcomes by way of financial or in-kind assistance is required.

### Eligible activities include

- ✓ River bank fencing (permanent or electric)
- ✓ Stock drinking troughs
- ✓ Revegetation & bush regeneration
- ✓ Weed control
- ✓ Bank erosion stabilisation

If you are interested in this opportunity, please complete the application form overleaf and return to Council Project Officer, Waterways, via email (scan/photo is acceptable) or mail.

Contact Matthew Bloor for further information.

# River Health Grants

## EXPRESSION OF INTEREST

If you are interested in receiving grant assistance please:

1. **TICK** the activities that you are interested in
2. **COMPLETE** the application form below with your contact and property details
3. **RETURN** this form to Tweed Shire Council Project Officer – Waterways

The next step will be to arrange an inspection of your river bank and discuss works that are possible and acceptable to both parties.

---

### Your Project more than one activity can be included

- Fencing
- Stock drinking troughs
- Revegetation / bush regeneration
- Weed control and maintenance of site
- Bank erosion stabilisation
