

Pasture and cattle management in the dry

Free field day for cattle graziers

With

Carol Rose – Education Officer, NSW Department of Primary Industries and Nathan Jennings – Senior Land Services Officer, North Coast Local Land Services

When

Wednesday 4 December 2019, 9am – 2pm

Where

Crystal Creek cattle farm (details provided on registration)

2019 is set to be one of the driest on record in the Tweed with most areas receiving 800 – 1000mm below the long-term average. A range of strategies and tools are available to assist graziers make decisions about feed budgets and stock numbers during extreme weather events.

The field day will cover:

- Getting to know your pasture species and what they tell you about land management and soil health
- Withstanding weather extremes with good pasture management
- Calculating feed budgets, stocking rates and selling v feeding cattle
- Tactics for dealing with dry conditions

For further information contact Council's Program Leader – Sustainable Agriculture, Eli Szandala on (02) 6670 2599
