

A safe and connected local road network

Working hard to keep you safe on our roads

Learn about which roads are being built or upgraded to adapt to our growing population in line with our long term plan and strategies.

Read our Delivery Plan to learn what projects we plan to deliver in the next 4 years.

Building and upgrading
local roads for our growing population

Maintaining
more than 1200 km of local roads

A safe and connected local road network

Responding
to high priority road hazards caused by weather events

Staying safe
on our roads with our support

When severe weather like heavy rain, floods and bushfires hit our priority is keeping you safe and connected. We address life-threatening risks first and target urgent maintenance on our busiest roads and areas where people are isolated.

To keep you safe and reduce the number and severity of crashes, we are working on safer road designs, safer speeds and working with you to have safer vehicles and safer people on our roads.
